Dear friends

I'm Jordão de Oliveira, a software developer with solid experience in various technologies. Passionate about solving technical challenges and creating scalable solutions, I bring a collaborative and results-oriented approach. My career is marked by continuous learning, with an interest in politics and innovation as complements to software development.

I'm happy to talk to you about how I can contribute.

Sincerely,

JORDÃO NHANGA DE OLIVEIRA

EXPERIENCE

ITGEST

Senior Software Engineer • Set 2024 – actual

- I worked as one of the software developers for the national banking regulator, where I participated directly in the project and gained valuable experience in the banking sector and the specific requirements of this type of application.
- I was responsible for implementing Angular and Cypress in all the company's projects, ensuring efficient automated testing and continuous integration. In addition, I contributed to the development of the standard architecture, ensuring the scalability of the applications.

Full Software Engineer • Jun 2022 – Ago 2024

- I wrote well-structured and readable code, aligned with the style guide, and delivered ETL software used for data collection in the national telecommunications sector, representing a significant milestone for my career.

EJunior Software Engineer • Fev 2021 — Jun 2022

- I took part in the development of software for the executive's project monitoring unit, being responsible for preparing reports on the platform, which were sent directly to the President of the Republic.

PAYWI

Frontend programmer • Jan 2021 — Mar 2021

- With my front-end experience, I contributed to the development of the startup, being responsible for implementing the layout and developing the front-end code.

IMOOLIVEIRA

System Administrator • Jul 2020 — Dez 2020

- At IMO OLIVEIRA, which operates in the real estate sector, I was responsible for the digital transformation, modernizing the company and maintaining the website, taking it from an archaic structure to a current and efficient operation.

NAELPRI

Programming trainer • Maio 2020 — Ago 2020

- I've been a programming trainer in various programming languages such as JavaScript, C# and SQL.

ACADEMIC BACKGROUND
